Apple-chan

Apple-chan Official Setting

- Apple-chan is a high-spec, high-priced, high-tech and hardworking Food Girl.
- She can't stand to do things only half way and hates losing. Her grades in school are amazing.
- Perhaps because of that, she is a little bit egotistical.
- Once she's decided on something, she'll never go back on it; she's the type that, even when she knows she was wrong, won't apologize - but she's trying her best, so please forgive her!
- She likes computers so she is aiming to be a programmer in the future.
